

4-Blade Manual Slit <KEI-110XY>

The 4-blade manual slit KEI-110XY is so compact and light that it is mounted on analyzer arms or inserted between optical components easily.

It is possible to separate it to a X-direction and Y-direction slit

Features

- ◆ Compact size
□83.2mm
- ◆ Each blade moves independently.
- ◆ Separable to a X-direction and Y-direction slit
- ◆ The parallel blades are finely adjusted by a Kohzu's technician manually for each by each.
- ◆ The blade is made of Tantalum and precisely polished.
